#### **Minds on the Edge**

This one hour television program effectively illuminates challenging ethical issues as well as systemic flaws in program and policy design, service coordination, and resource allocation. These problems are contributing to a mental health system that is widely acknowledged to be broken. *MINDS ON THE EDGE* also provides a glimpse of innovative solutions that are currently being implemented across the country. These innovations, many shaped by the guidance and expertise of people with mental illness, offer promising solutions and hopeful direction to transform the mental health system.

**A facilitated discussion will follow the  
media presentation.**

#### **Who Should Attend**

- Faith Leaders
- Friends and family members of someone with a mental health diagnosis
- Caring people who want to learn more and make a difference in moving the bar on awareness, access to services and partnering relationships with regard to mental wellness

**Fee:** Free will offering
