

Adolescent Mental Health

Current Trends in Our Communities & Programs

Developmental changes in adolescence are dramatic as the brain and body evolves. Deborah Taber, Administrative Director of Psychiatry & Behavioral Sciences for the Northshore University Medical System, will review how school demands, drug use, social media, and gender identity issues can create a mental health crisis in this public forum.

Presented by NAMI CCNS.

Monday, April 17
7:00pm, Pollak Room
Northbrook Public Library
1201 Cedar Lane
